

Narrow Head & Neck Immobilizer

The versatile positioning device for head and neck treatments.

Simple-to-use and compatible with reusable and disposable frames, this head and neck board is five inches narrower than our popular RT-5030. Its low profile clamps make for a quick and easy fixation while providing unobstructed treatment angles.

Versatility

This lightweight board has more versatility than other head and neck boards.

- Can be used with disposable and reusable frames
- Timo, Silverman and MoldCare® compatible
- Locks down to Exact™ Couch
- Small profile clamps make treatment angles easier to obtain
- Non-stick nylon spacers prevent thermoplastic from sticking to the board

Fast & Efficient

- Easy-to-use clamp system
- Easy-to-find locator pins for disposable/reusable thermoplastic masks

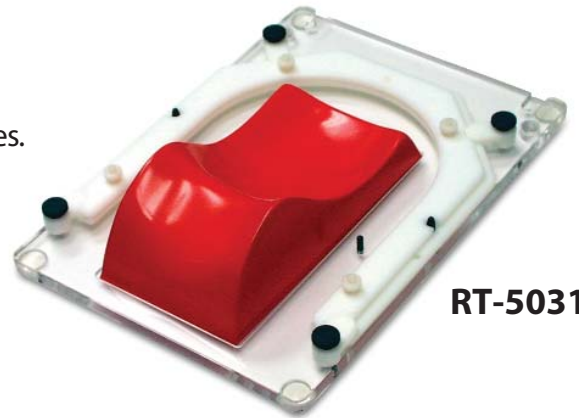

Stability

- This device is 10" wide and 14 ¼" long
- Weighs a nominal 2lbs 10oz
- Skid resistant base with rubber feet to prevent slippage

Service

All Bionix Radiation Therapy products are fully guaranteed and warranted to be free from defects in workmanship for a period of three years from date of purchase.
